

```
w = LabelFrame( master, option, ... )
```

Parameters

- 21.** master: **This represents the parent window.**
- 22.** options: **Here is the list of most commonly used options for this widget. These options can be used as key-value pairs separated by commas.**

Option	Description
bg	The normal background color displayed behind the label and indicator.
bd	The size of the border around the indicator. Default is 2 pixels.
cursor	If you set this option to a cursor name (<i>arrow, dot etc.</i>), the mouse cursor will change to that pattern when it is over the checkbutton.
font	The vertical dimension of the new frame.
height	The vertical dimension of the new frame.
labelAnchor	Specifies where to place the label.
highlightbackground	Color of the focus highlight when the frame does not have focus.
highlightcolor	Color shown in the focus highlight when the frame has the focus.
highlightthickness	Thickness of the focus highlight.
relief	With the default value, relief=FLAT, the checkbutton does not stand out from its background. You may set this option to any of the other styles
