

Try the following example yourself:

```
import Tkinter
import tkMessageBox

top = Tkinter.Tk()

def hello():
    tkMessageBox.showinfo("Say Hello", "Hello World")

B1 = Tkinter.Button(top, text = "Say Hello", command = hello)
B1.pack()

top.mainloop()
```

When the above code is executed, it produces the following result:

Let us take a look at how some of their common attributes, such as sizes, colors, and fonts are specified.

1. Dimensions
2. Colors
3. Fonts
4. Anchors
5. Relief styles
6. Bitmaps
7. Cursors

[Let us study them briefly:](#)
